

This technical drawing shows a plan view of a river restoration project. The main feature is the 'Canale Lanza' (Lanza Channel), which runs horizontally across the middle of the page. To its right, the 'Rio Vallare' flows diagonally downwards. A dashed line indicates the original river course, while solid lines show the new alignment. Key points along the channel are labeled with red circles containing numbers (e.g., S56, S57, S58, S59, S60, S61, S62, S63, S64, S65, S66, S67, S68, S69, S70). Two specific locations are highlighted with yellow boxes: 'P6' (Pontone Bariballano) and 'S4' (Ferma Vallare/Ponte Boscone). A north arrow is located in the top left corner. A scale bar at the bottom left indicates a scale of 1:2000. A text box in the upper center provides details about the typical section '6':

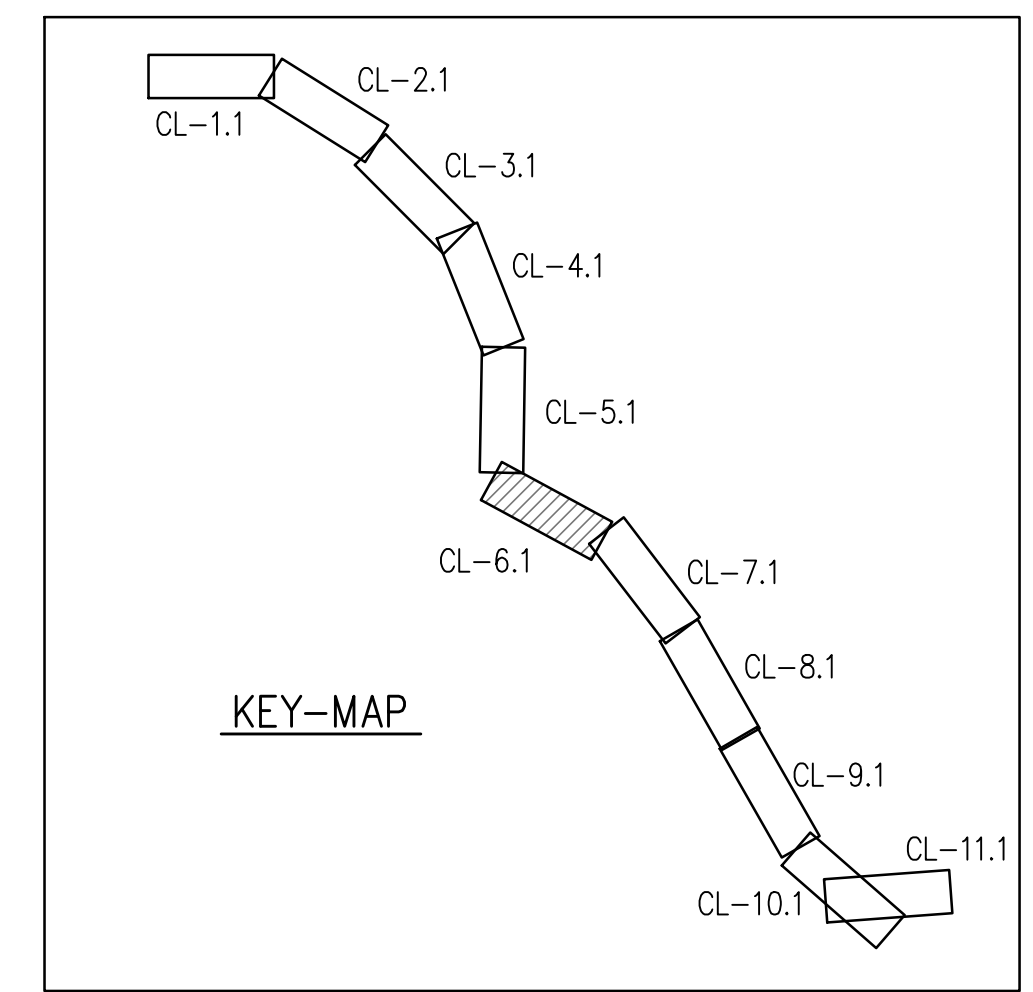

- TRATTO TIPOLOGICO "6" - L=1315 m
- RIFACIMENTO SPONDE SINISTRA E DESTRA CON MURI PREFABBRICATI E NUOVO FONDO ALVEO IN CLS

The drawing also includes various elevation markers (e.g., 109.1, 110.1, 110.3, 110.5, 110.7, 111.2, 111.5) and labels for existing infrastructure like 'PONTE BARIBALLANO PROG. 8282.00 m' and 'FERMA VALLARE/PONTE BOSCONI (PROGR. 8574.65 m)'.
